

Phase – 17

Liver, Pancreas, Spleen, Kidneys and Adrenal Glands Cleanse

We will be focusing on the “Liver, Pancreas, Spleen, Kidneys and Adrenal Glands”, before we run the light infusion procedure, we must understand this part of the body.

The liver is a vital organ that processes blood and breaks down, balances, and creates the nutrients and also metabolizes drugs into forms that are easier to use for the rest of the body or that are nontoxic. If the liver is not working effectively a person can become very sick or even die.

The pancreas is an organ located in the abdomen. It plays an essential role converting the food we eat into fuel for the body’s cells. The pancreas has two functions to digest and regulate blood sugar.

The spleen controls the level of white blood cells, red blood cells and platelets. It screens the blood and removes any old or damaged red blood cells.

The kidneys are a special filter system for the body. Kidneys remove waste products from the blood and produce urine. They control the levels of many substances in the blood and help to control blood pressure.

Adrenal glands produce hormones that help regulate your metabolism, immune system, blood pressure, response to stress and other essential functions.

For today we will run the light infusion procedure for the sake of the program. If you find from time to time during the

maintenance after you finish the program, you can always run the procedure in these areas when needed.

It is now time to connect to your personal “Healing Chamber” and begin to run light infusion into and around the “Liver, Pancreas, Spleen, Kidneys and Adrenal Glands”, restoring it back to its “Original DNA Blueprint” or “State of Being”. Get comfortable, in a place where you will not be bothered by outside influences.

Now that you have completed this phase of the program. It is safe to go ahead on a daily basis and run light infusion for the rest of the program. If this is your first time running this program it is important to do the phases in order. Once you have run all of the procedure's you can come back to specific areas that may be important for you to take more time, such as if you are trying to shrink a tumour or restore yourself back from a particular illness that your body has taken a hit. From time to time depending on circumstances you may just need more time to repair, regenerate and re-calibrate certain areas of your body. Remember this program is not a quick fix and it will take time and regular routine light infusions to keep yourself in total balance.
